During the present term of this court there vere published in the journals of this city, as the accounts of a discourse delivered from the ulpit of one of our churches, certain accusations against the character and fitness of the officials charged with the duty of ad-ministering our municipal government. The imputations were not limited to any particular branch of the city government, but in sweeping terms condemned the entire body of officials in language so lacking in specification, however, that with one ex-ception no cognizance could be taken of them.

One assertion, however, was sufficiently specific as to warrant attention by this body. namely, the declaration to the effect that the District-Attorney had, in November, 1891, re-rused to supply, although it was in his power to do so, evidence required by the Grand Jury, then in session, for the purof founding a prosecution against a notorious and disreputable resort, the proprietor of which has since been convicted, law; and that by such refusal and neglecting to proceed against the proprietor of such re-sort the Districf-Attorney had encouraged him in its conduct and maintenance

The petition for a receiver was filed by W.

P. Fishback, who set forth that he was a citzen of the city of Indianapolis, that the cittzens' company occupied the streets by reason of a franchise granted twenty-eight years ago; that till recently it performed its duty as a common carrier, and did so until Mr.

Frenzel was elected president; that he had no experience in such business, and that he was wholly unfit for his position and was only appointed because it was thought he could get a renewal of the franchise.

The petition then recited the causes of the strike and the decision of the Directors to stand by Frenzel, and said that a continuance of the strike would result in bloodshed and destruction of property; that the Directors were unfit to operate the Company, and as a result the people were deprived of their means of transit.

Sterling Exchange was barely steady in tone. Actual rates are 4.85 a 4.854 for 60 days and at 4.873 a 4.8734 for demand.

The great feature of the afternoon speculation was the rise in the Vanderblits, Lake Shore, Michigan Central, New York Central and Canada Southern having been steadily absorbed, and, judging from surface indications, by the insiders themselves.

On the other hand, there were realizations in the coalers, New England and other leading stocks, which checked the rise and in some cases led to a moderate reaction.

It is rumored from Chicago that at the annual meeting of the Distilling and Cattle-Feeding Company to be held in April, there will be an entire change of management. The property is now owned by Eastern capitalists. It is stated that a \$2,000,000 distiliery will be erected in Calcago to right the Company.

Evelyn Granville's plump chocks had grown a damask red, and it was easy to imagine her one-time given beauty. She had told her story simply, but without the slightest emotion in her onirrup-like voice.

"Well, Chief Woods advised you to leave town, didn't he. In consequence of those charges of reported theft?"
Mr. Howe objected, and Mr. Stapler insisted that, if true, it would bear upon the credibility of the witness, but the Court ruled the question out.

Then Mr. Stapler said that he believed that I the could prove that Evelyn Granville had brought a charge of a blackmailing character against Tom Dolan and been warned by the chief of Police to get out of town it would be competent, but he was not allowed.

"Did you ever live with any other man than Webster as his wite?" asked the District-Attorney.

Mr. Howe objected on the ground that the answer might tend to disgrace the witness, and Evelyn was excused from answering when she declined to reply on these grounds.
